VEADO IT Consulting

AI & CLOUD CONSULTING · AUSTRALIA

AI & Cloud that works as hard as you do.

An Australian team with 15+ years turning AI and cloud into measurable outcomes — from strategy to secure, scaled deployment.

15+	100%	2	E2E
Years in IT consulting	Australian owned & operated	Major cloud partnerships — AWS + Microsoft	Strategy to deployment, in-house

WHAT WE DO

01 / ARTIFICIAL INTELLIGENCE

Practical AI that earns its place

From strategy to governed GenAI in production — adopted by your team, not bolted on.

- **A1 AI strategy & roadmaps** — Advisory, adoption and roadmaps tied to real outcomes.
- **A2 GenAI implementation** — Generative AI for content and chatbots, in production.
- **A3 ML & AI data assessment** — Data cleansing, preparation and governance for AI.
- **A4 Governance & monitoring** — SME-friendly tools with automated monitoring & auditing.
- **A5 Integration & orchestration** — AI integration orchestration & managed integrations.
- **A6 Low-code & enablement** — Low-code / no-code platforms, training & workshops.

02 / CLOUD

Secure, resilient cloud, done properly

Strategy, migration and engineering across Azure, M365 and AWS, with security baked in.

- **C1 Cloud strategy & roadmaps** — Advisory, adoption, roadmaps & greenfield setups.
- **C2 Migrations & modernisation** — Azure, M365 and AWS, with minimal disruption.
- **C3 Cloud security** — Posture hardening, identity and compliance.
- **C4 Backup & resilience** — Cloud backup solutions and continuity planning.
- **C5 Platform engineering** — DevSecOps and CI/CD pipelines, secure by default.
- **C6 Integrations & licensing** — Platform integrations & software reseller services.

SME PACKAGES Tailored, fixed-price, tool-focused engagements for small business.

HOW WE WORK

1. **Discover** — We learn your business, data and goals — and where AI and cloud will move the needle.
2. **Strategy & roadmap** — A pragmatic, prioritised plan with clear value, costs and milestones.
3. **Build & integrate** — Secure, scalable delivery on AWS and Azure that fits your existing stack.
4. **Enable & support** — Training, knowledge transfer and ongoing care so your team stays in control.

WHY VEADO

Expertise you can trust
Industry-leading AI & cloud professionals with a proven track record of complex delivery across Australian sectors.

End-to-end support
From strategy and design to deployment and maintenance — one team accountable the whole way.

Solutions built for you
No generic templates — bespoke solutions around your goals, constraints and budget.

Scalable & future-proof
Architectures built to scale with you, so they keep delivering value as your needs evolve.

Book a 30-min consult

No obligation — just a straight conversation about where you want to get to.
